

# THE RETAINER SPRINT

6 Weeks to install a predictable client system, for talented creatives stuck under £5k/Month.

## WHO THIS IS FOR

- Your work is strong
- You've had paying clients before
- You're stuck under £5k/month
- You want ongoing retainers
- You're ready to implement

This is not for beginners.

This is not for people looking for shortcuts.

This is for talented creatives who need structure.

## THE REAL PROBLEM

You're talented.

Clients are happy when they hire you

But you're stuck:

- Under £5k/month
- Inconsistent enquiries
- Random projects
- Starting from zero too often

The issue isn't skill.

You don't need better gear.

You don't need better editing.

You need predictable client flow.

That's what this sprint fixes.

## WHAT THIS IS

A 6-week live implementation sprint where we build:

- A retainer-based offer
- Authority positioning
- A repeatable outreach system
- A clean sales framework
- A simple CRM tracker

No paid ads.

No complex funnels.

No expensive tech stack.

Just positioning, conversations, and systems you control.

## WHAT YOU LEAVE WITH

- A clear retainer offer
- Authority positioning
- DM + email outreach scripts
- A structured discovery call framework
- A visible pipeline tracker
- A 90-day retainer growth roadmap

This is about moving beyond inconsistent £3–5k months.

And building predictable revenue.

## THE OUTCOME

By the end of 6 weeks, you won't be guessing.

You'll have:

- A system
- A pipeline
- A structure
- A plan

The goal:

Sign your first — or next — retainer.

And build momentum you control.
